Dear Edhis:

I apologize that I was unable to write to you sooner but I've had some real confusion around here and I've really been going bats. I promise to correct my lackadaisical habits and I'll write to you often and put you on our mailing list.

Right now we're using a Viking II but we hope to go mobile soon with a smaller xmitter that can be run from a car with a "teraflycatcher" antenna as we're planning to advertise on 20 radio stations in the 5 big cities around Philadelphia - and we hope going mobile will make us uncatchable with the FCC.

I hope our signal comes out OK as Maryland is fairly close and so far nobody's ever wrote us to tell us how we sound. If you feel like we're doing anything wrong with the xmitter, or if you can't get us well, please write and let us know.

I've also enclosed some of our press release materials and it should give you a good idea on our ideas and what we've been up to.

I hope someday soon to broadcast a couple kilowatts but I sure can't go mobile with that but I have a friend who knows

how to do all these various things and hopes to set us up in
about a year - local casting all around world

Also please let me know what you think about what
ever is up to

It'll be keeping in contact +
do please you on our mission but

your trust

Dear Sir:

Thank you for your letter.

We have already paid \$500 for the radio transmitter - diagrams enclosed and please realize that we plan to take the lead throughout the world in our campaign of the Soviet Union.

Please send us our membership info that you can do us want to contribute to you - much appreciate.

Thank you
James W. Gross

To: Mr. Alexander I. Solzhenitsyn
Dear Mr. Solzhenitsyn:

I am very happy to write to you as I am a very avid reader of all your works, and I look forward to your eight volume history of the Russian Revolution which I believe will soon be published in English.

Enclosed is a copy of our press release that we are giving out to all media to publicize Arnold Toynbee's conception of the Colonization of Outer Space, as depicted in the movie "2001 A Space Odyssey" on the ability of science to bring every dead molecule of every dead human body, of every dead human being that has ever lived in history in order to bring them back to life on the gigantic plane of Jupiter. It is also our claim that his idea of bringing every human being of history back to life on the planet Jupiter, as depicted in the movie "2001 A Space Odyssey" in light of Toynbee's claim science can now do all those 'things' that only God was able to do.

So far we have publicized these ideas to ten million people and we should reach a total of 20 million even if we do not get any support from the American Media. But I myself, am very determined to publicize these things across the world - especially the Soviet Union.

I am sending these ideas to every great thinker in the United States, in order that they, in their own minds, might be able to formulate an opinion of it.

I hope you can find some interest in this movement as I hope to prepare and send more material to you, if we are in any way successful in publicizing Arnold Toynbee's conception of the Colonization of Outer Space.

Yours truly,
Severino Verma

P.S. We are already planning to acquire a Short Wave transmitter of our own to follow out your idea of broadcasting into the USSR.

Copy of letter to Abraham Shifrin
A copy of your letter to President Carter in USA

Dear Sir:

I am very pleased to write to you and have studied your USSR prison guidebook and I want you to know how fully we support your efforts to expose the truth about the Concentration Camps of the USSR.

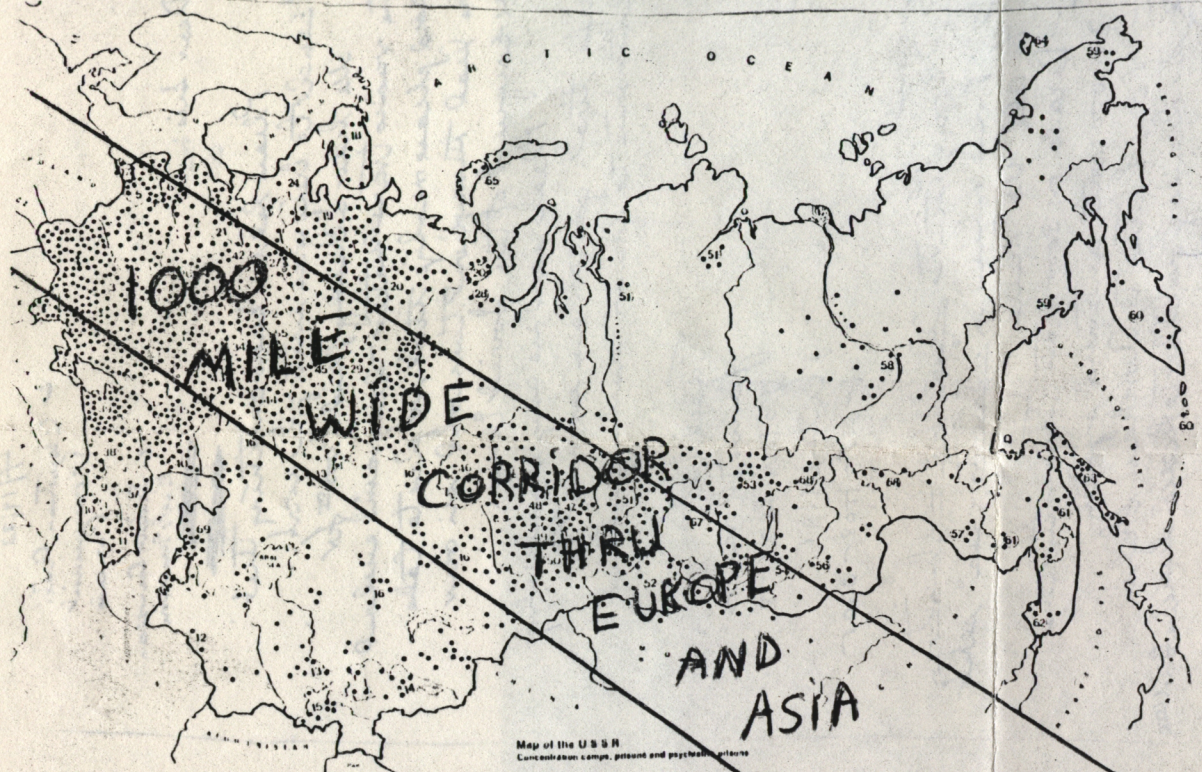

Enclosed is \$500 check (dit's all I can afford, as you can see from my press release, I have an organization to support also). Please let us know how we can organize sending of parcels to families of political prisoners in USSR.

We have wrote to every address in your book to provide support for those suffering in the USSR.

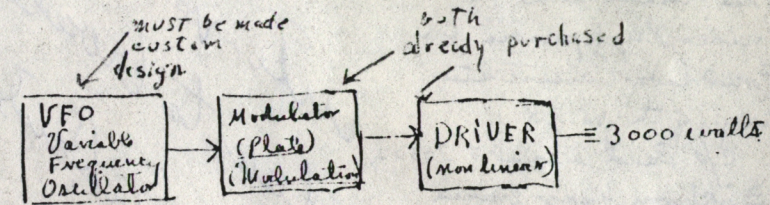

Please note our plans for Short Wave radio transmitter to be used in accordance with A.I. Solzhenitsyn's exceptions of truthful broadcasts to USSR. If you can give us any info on what you think is the best in reaching USSR

Enclosed:

- Copy of letter to A. Solzhenitsyn
- Press Release on "Mission to Asia" sent to all U.S. media.
- Details on 3 kw transmitter with 600 foot away to form 1000 mile corridor of broadcast into the Bolshevik Union.

PUBLIC NOTICE
Toynbee's ideas in movie "2001 A
Space Odyssey" - to bring every dead
molecule of every human body of
history to life on planet JUPITER.

Letters sent
9:00 AM May 3,
1983

4/24/83

To: The People of The U.S.S.R.

The movie "2001 A Space Odyssey" is one of
the most famous movies (cinema) made in the free world, and
of course, Arnold Toynbee is the most famous
historian of our 20th century era.

Please help us get these ideas spread in
the Soviet Union. Although our group is small, we
are trying to expose the flight of the kuleks ^{to the} in your
country.

May God Bless you, and please
remember my name and

phone number as our struggle

and yours are hand in hand to
each other.

To: Mr. Alexander I. Solzhenitsyn
Dear Mr. Solzhenitsyn:
I am very happy to write to you on a very special day
of all your work, and I look forward to your continuing
history of the Russian Revolution which I believe will soon be
published in English.
Enclosed is a copy of our grass roots letter we are writing
out to all media to publicize Arnold Toynbee's conception of
the Colonization of Outer Space, as detailed in the novel "1984"
Space Odyssey", on the ability of humans to bring every dead
molecule of every dead human body, of every dead human being
that has ever lived in history in order to bring them back to
life on the gigantic planet of Jupiter. As you can see from
that this idea of bringing every human being of history back to
life on the planet Jupiter, is depicted in the novel "1984".
Space Odyssey" in light of Toynbee's "The Open Society and its
Enemies" that only God has infinite life.
So far we have publicized these ideas to ten million people
and we should reach a total of 10 million people in the next
few months. We are also receiving support from the American Medical
Association, the American Dental Association, and the American
Psychiatric Association. We are also receiving support from the
Soviet Union.
I am sending these ideas to every newspaper in the
United States, in order that they be read by every citizen,
and to formulate an opinion of their own.
I hope you can find some interest in this movement as I
hope to progress and send more material to you. If you are in any
way successful in publicizing Arnold Toynbee's conception of
the Colonization of Outer Space.
Yours truly,
Alexander I. Solzhenitsyn
Soviet Union
We are already planning to send you a copy of our book
of our own to follow our book of "The Open Society and its
Enemies".

All civilizations based their institutions on belief in "the afterlife." Toynbee says in his autobiography, "this is now possible thru scientific means." As a belief based on 62 years of his life - for science to perform God's work through scientific means in the manufacture of a real afterlife for all human beings of history. Toynbee leaves these ideas behind in autobiography which he describes as his "Last Will and Testament to the Human Race," which was written, he claimed, "in order to leave something behind before he died."

"Through climbing a 'ledge of evolution,' Toynbee says, "the first cavemen made the first stone tool. In our day," he continues, "humanity has the power to bring every dead molecule of every human being of history back to life through scientific means. This is when humanity climbs the next 'ledge of evolution' at this point where we can do anything God could do, and are able to fulfill all of those big promises that God had made about what that afterlife would be."

Besides Toynbee's instructions as depicted in Toynbee's autobiography, Toynbee also leaves instructions on how to bring these accomplishments about by establishing a political Regime, a regime based on the ability of Science to bring all human beings of past history back to life thru scientific means.

It is here where Arnold Toynbee gives us authoritarian instructions and tells us exactly what to do to establish this regime. Our organization is to carry out these instructions as best we can.

DATES AVAILABLE: Available all times day and night for call ins. Am ready, willing and able for all types media presentations. I am able to mail tape cassettes and will send them when requested. Furthermore we request only the courtesy of labeling our movement "Arnold Toynbee's Conception of the Colonization of Outer Space as depicted in the movie '2001 A Space Odyssey.'"

BIOGRAPHICAL MATERIAL:

Between January and June 1979 (exact month unknown) by a complete accident I discovered a piece of writing by the Historian Arnold Toynbee in a library book - where Toynbee explained his belief in the ability of science to bring every dead molecule of every dead human body, of every dead human being of past history back to life again through scientific means.

In July 1979 I discovered that Toynbee's claim that the first caveman who made the first stone tool created the power of science to bring all dead molecules of people of past history back to life again, was the same caveman in the movie 2001 A Space Odyssey. Through a process of discovery I realized the connection between this caveman and the caveman's first tool in the movie 2001 A Space Odyssey.

SUGGESTED SUBJECTS FOR INTERVIEWS:

Arnold Toynbee's conceptions, and how depicted in "2001 A Space Odyssey," as well as the Polarization of the Planet Jupiter, as well as all details revolving around these 3 issues, as well as how our movement came into existence.

Publicity Campaign will fall in 3 stages of publicity, each separated by 4 or 6 months time.

✓ The first stage of publicity is to publicize Arnold Toynbee's conception of bringing dead humanity back to life on the planet Jupiter, as it was depicted in the movie "2001 A Space Odyssey." Once these 3 ideas are publicized then humanity will 'transfer from one stage of history to another' (as Toynbee says in his autobiography).

✓ The second stage of publicity will be to publicize how our movement came into existence by accidental discovery of special piece of writing by Toynbee from library book, which gave instructions on how spiritual things could be established into the human race by establishing a political regime - a regime based on the ability of science to bring every human being of history back to life again through scientific means. Here I will explain about only some of the instructions Toynbee left behind.

✓ The third stage of publicity where instructions by Toynbee will be exposed in detail.

I welcome whatever constructive publicity regarding our movement (i.e. Arnold Toynbee's Conception of the Polarization of Outer Space as depicted in the movie "2001 A Space Odyssey").

I will send detailed tape cassettes on each stage of publicity, and will send everything when requested

For Immediate Release

in movie "2001 A Space Odyssey"

Proposed Headline:

Toynbee - 2001, and the Planet Jupiter

A small group of men are planning press conference in Philadelphia regarding "Arnold Toynbee's Conception of the Colonization of Outer Space, as depicted in the movie, '2001, A Space Odyssey.'"

James Morasco, publicity director, stated that the purpose of the conference is to bring favorable attention to Arnold Toynbee's belief in science - to bring dead molecules of dead human bodies of all dead human beings of history, back to life on the gigantic planet of Jupiter! Morasco insists "2001 A Space Odyssey" is based on this theme.

This organization "The Minority Association," is composed from a set of instructions from one of Toynbee's writings; our goal is to make the rebirth of all human beings of past history occur on the planet Jupiter - as a finale - to Toynbee's claim science can do anything God can do.

In light of Toynbee's ideas, we hope to gain popular support for the colonization of the planet Jupiter, to give the planet Jupiter an oxygen atmosphere and to heat the planet up.

As the most unusual scientific movement in the U.S.A., James Morasco, spokesman for the group, wants the world to put all other affairs aside in order to scientifically colonize the planet Jupiter, in the way, he claims, was depicted in the movie "2001 A Space Odyssey." That is, to scientifically give the planet Jupiter an oxygen atmosphere and to heat the planet up by artificial means.

Morasco insists the movie "2001 A Space Odyssey" depicts this scientific colonization of the planet Jupiter.

"Our movement," says Morasco, "has developed a publicity campaign regarding colonizing the planet Jupiter as depicted in 2001 and in Toynbee's writings."

FACT SHEET

HISTORY: Arnold Toynbee's Conception of the Colonization of Outer Space, as depicted in the movie "2001 A Space Odyssey," was first explained in a 'call in' on the Larry King Show in February 1980. Our organization, called "The Minority"^{Again} is permitted to accept contributions in order to fulfill its only function, which is to publicize that the movie "2001 A space Odyssey" depicts bringing dead molecules of dead human bodies of past history, back to life on the planet Jupiter, and to publicize also that these ideas were taken from the Historian Arnold Toynbee. We need contributions to publicize these three ideas all around the world.

PERSONNEL: Besides myself, a few part time volunteers. All personnel are volunteers. There are no salaried personnel.

AIMS AND ACHIEVEMENTS:

Our aim is to publicize that "2001 A Space Odyssey depicts bringing dead molecules of dead human bodies of all human beings of past history - back to life again on the planet Jupiter, as taken from the Historian Arnold Toynbee.

After we get nationwide acceptability for Toynbee's ideas of bringing dead humanity back to life on the planet Jupiter, as depicted in 2001 A Space Odyssey, our second and third stages of publicity will commence regarding how our movement came into existence by discovery of writings by Toynbee in library book and Toynbee's instructions contained in it.
